Re: Legislative Procedures

I am vetoing this statute because of the language used in Section V substantial should be changed to read **substantive** or anything that changes the meaning of the legislation. The legislation **must** be reposted this allows for a transparent government it currently states that it may be reposted. Section VI. nowhere is Emergency Statutes defined or what is considered an emergency that must be defined. The language regarding Emergency Statutes according to our Constitution all legislation must be sent to Executive for signature it is unclear in this area if this language is bypassing the Executive in regards to an unanimous vote by the Tribal Council. I do believe all legislation should be posted for comment by our citizens so we can all work together on moving forward in a good way.

Respectfully submitted,

Regina Gasco-Bentley

Tribal Chairperson
